Job chapter 40
Job was sick and he didn’t think God could help him. One day God spoke to Job and told him how He alone had created a huge animal called Behemoth.
He told Job that this enormous animal ate grass, just like a cow and it liked to lie down under the shade of a tree.
He said that Behemoth was very big and strong, with a huge, powerful body and thick skin.
He had a long thick tail, which was also very strong, and was just like the thick trunk of a big cedar tree.
God said that He made its legs to be powerful, with bones as strong as iron, that did not break. People were scared if this mighty animal.
Behemoth was the biggest animal that God ever created. It was bigger than a whale or an elephant and hunters couldn’t kill it with a shape sword.
This animal sounds exactly like a Dinosaur!
If God was able to design such an amazing animal, then Job knew that God could help him too!
