

This animal sounds exactly like a Dinosaur!
If God was able to design such an
amazing animal, then Job knew
that God could help him too!

1

Job was sick and he didn't think God could help him. One day God spoke to Job and told him how He alone had created a huge animal called Behemoth.

2

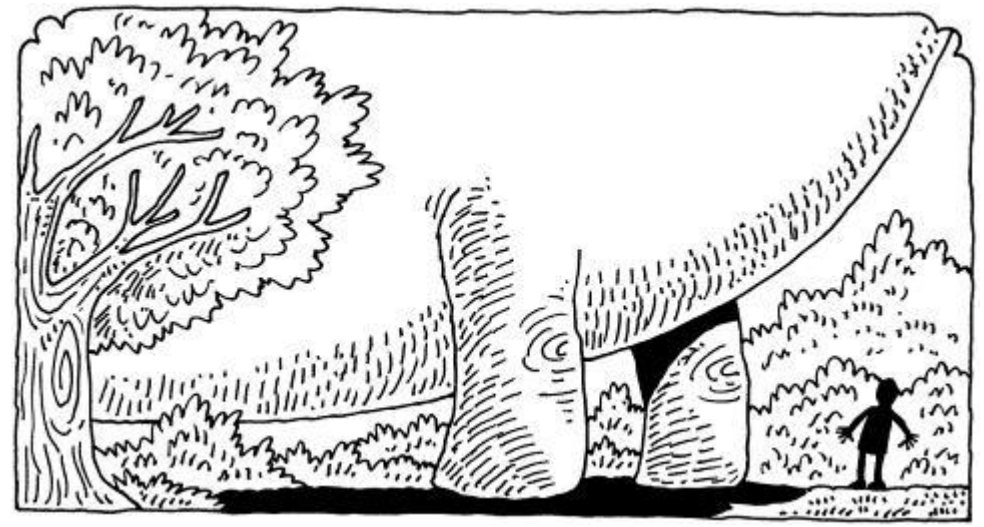

Behemoth was the biggest animal that God ever created. It was bigger than a whale or an elephant and hunters couldn't kill it with a sharp sword.

God said that He made its legs to be powerful, with bones as strong as iron, that did not break. People were scared if this mighty animal.

6

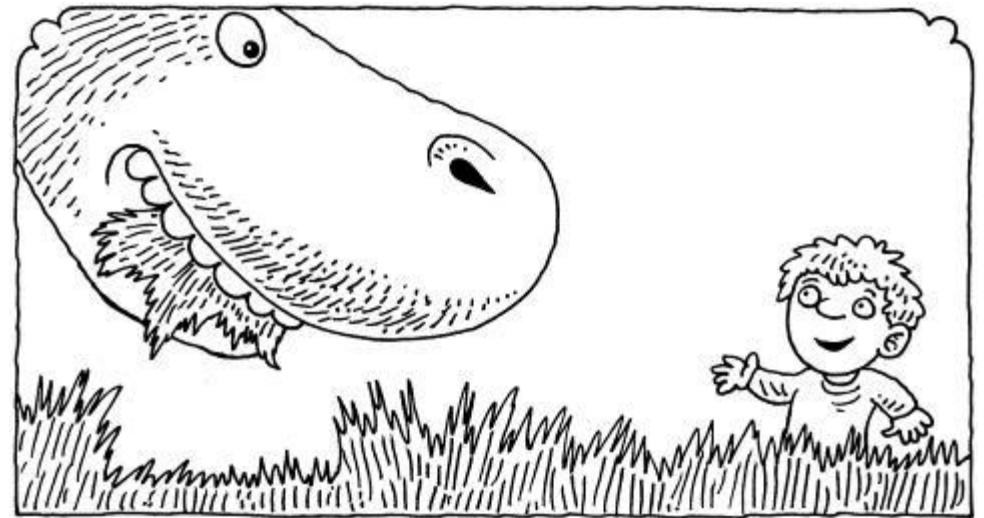

He told Job that this enormous animal ate grass, just like a cow and it liked to lie down under the shade of a tree.

He said that Behemoth
was very big and strong,
with a huge, powerful
body and thick skin.

4

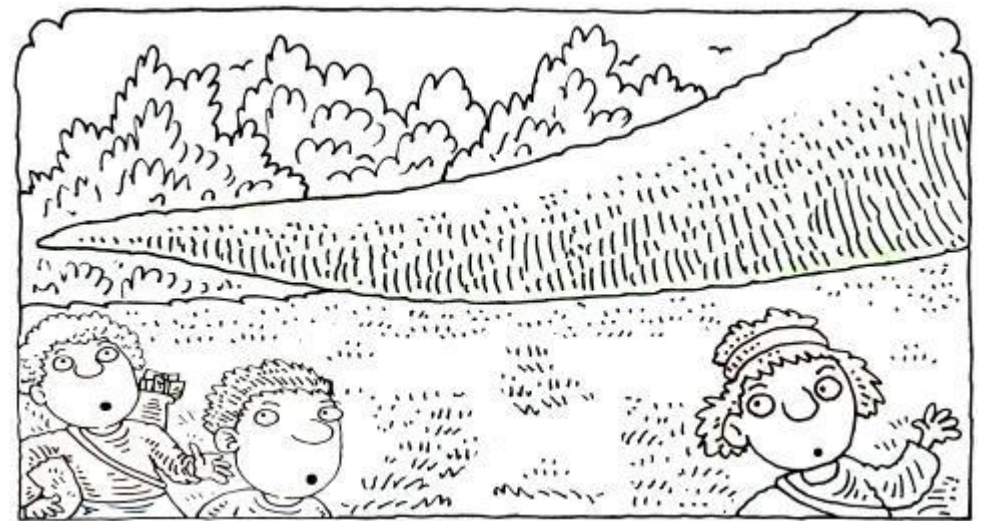

He had a long thick tail,
which was also very strong,
and was just like the thick
trunk of a big cedar tree.
