

God Made Bees

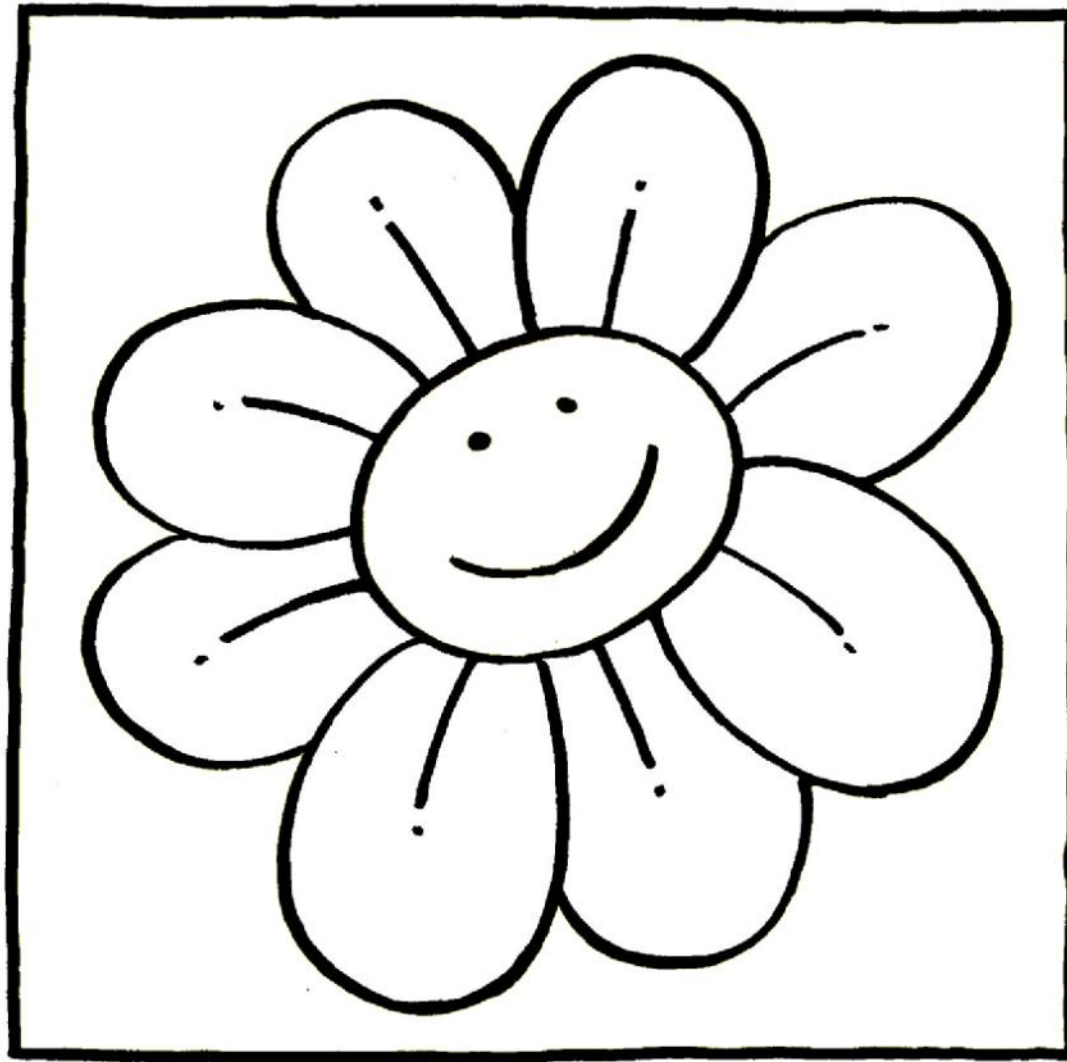

By Jill Kemp

Illustrated by Richard Gunther

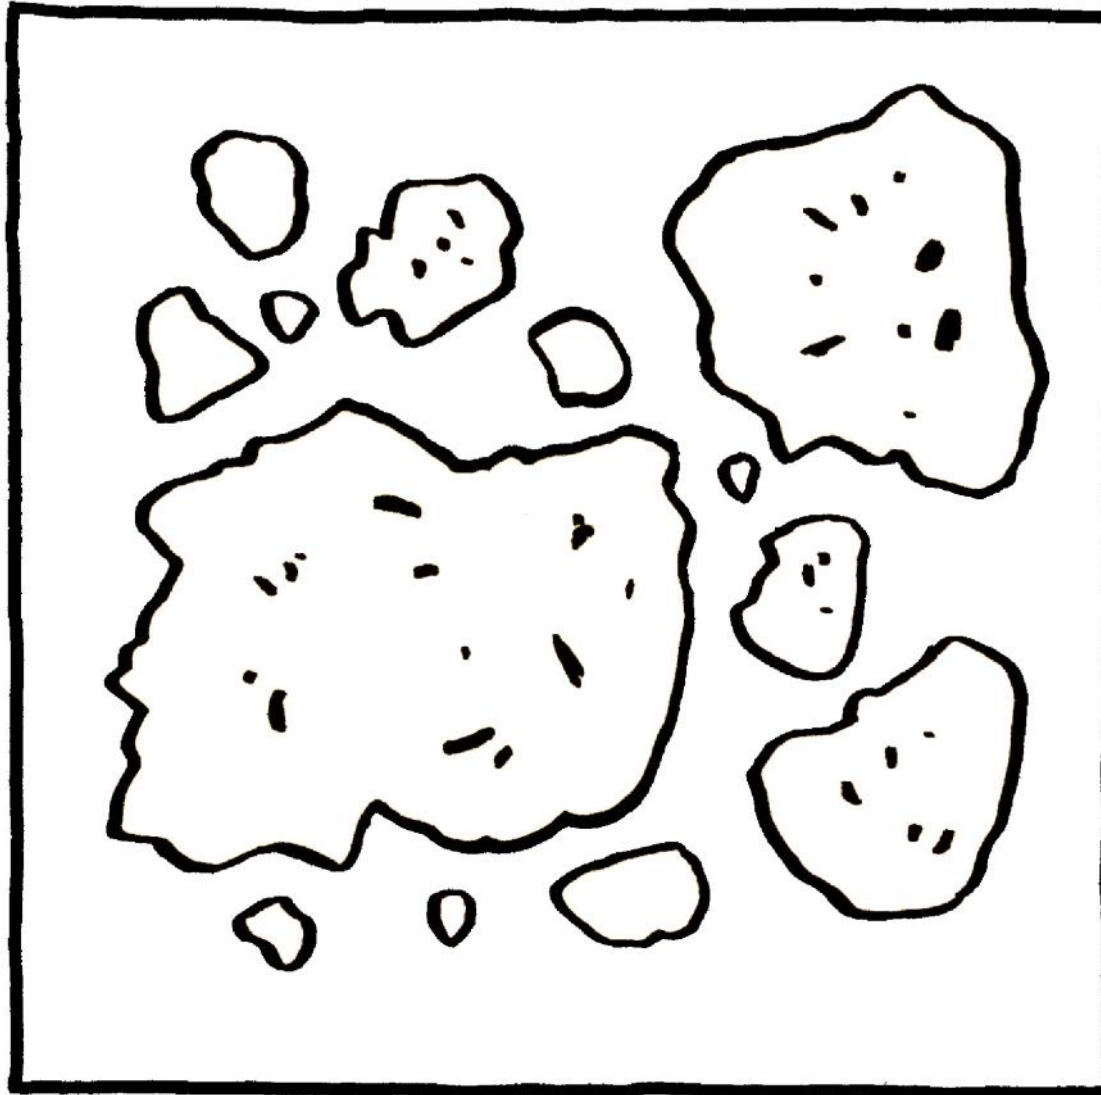

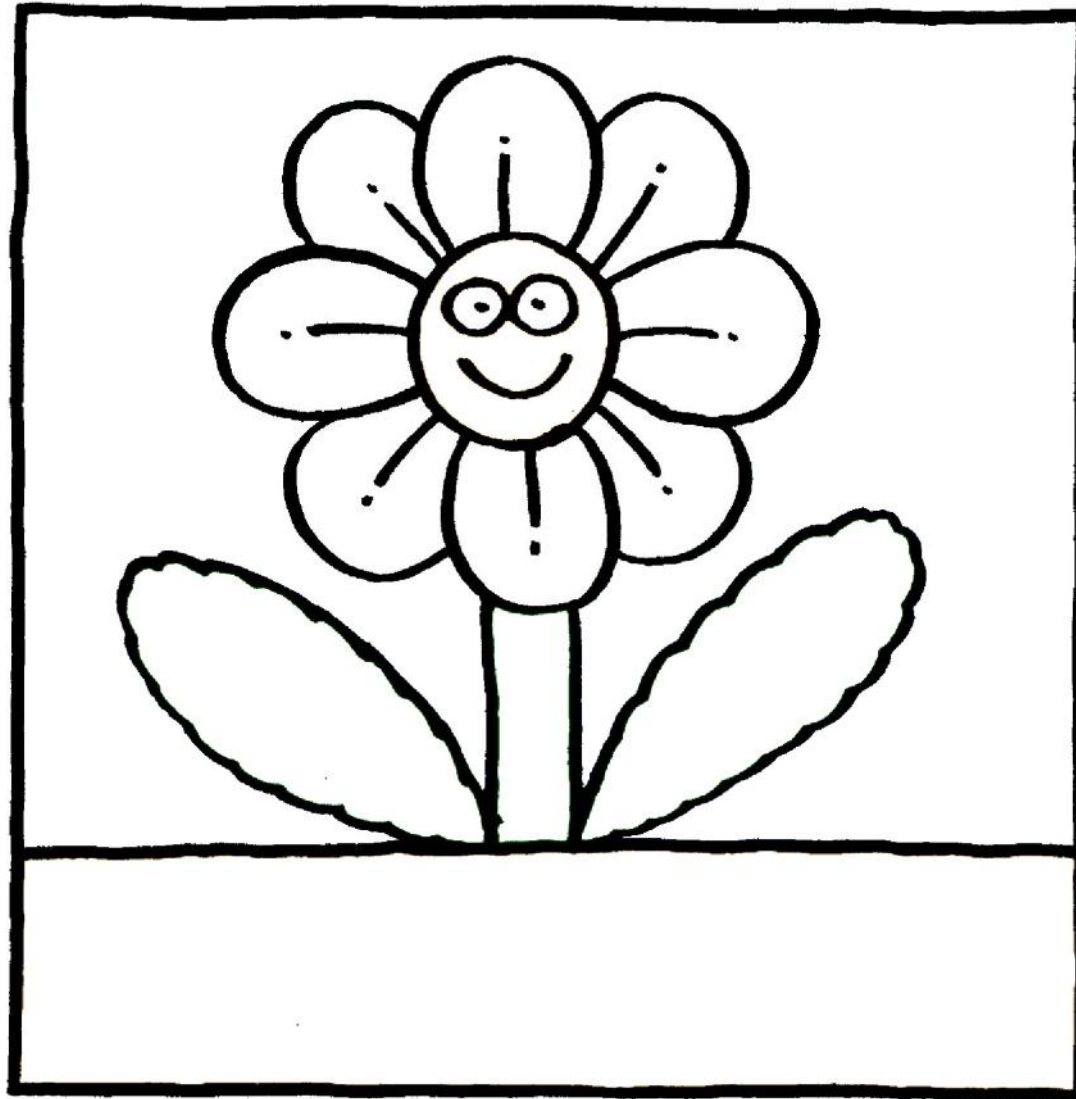

God made bees.
He gave them wings
so that they
can fly to flowers.

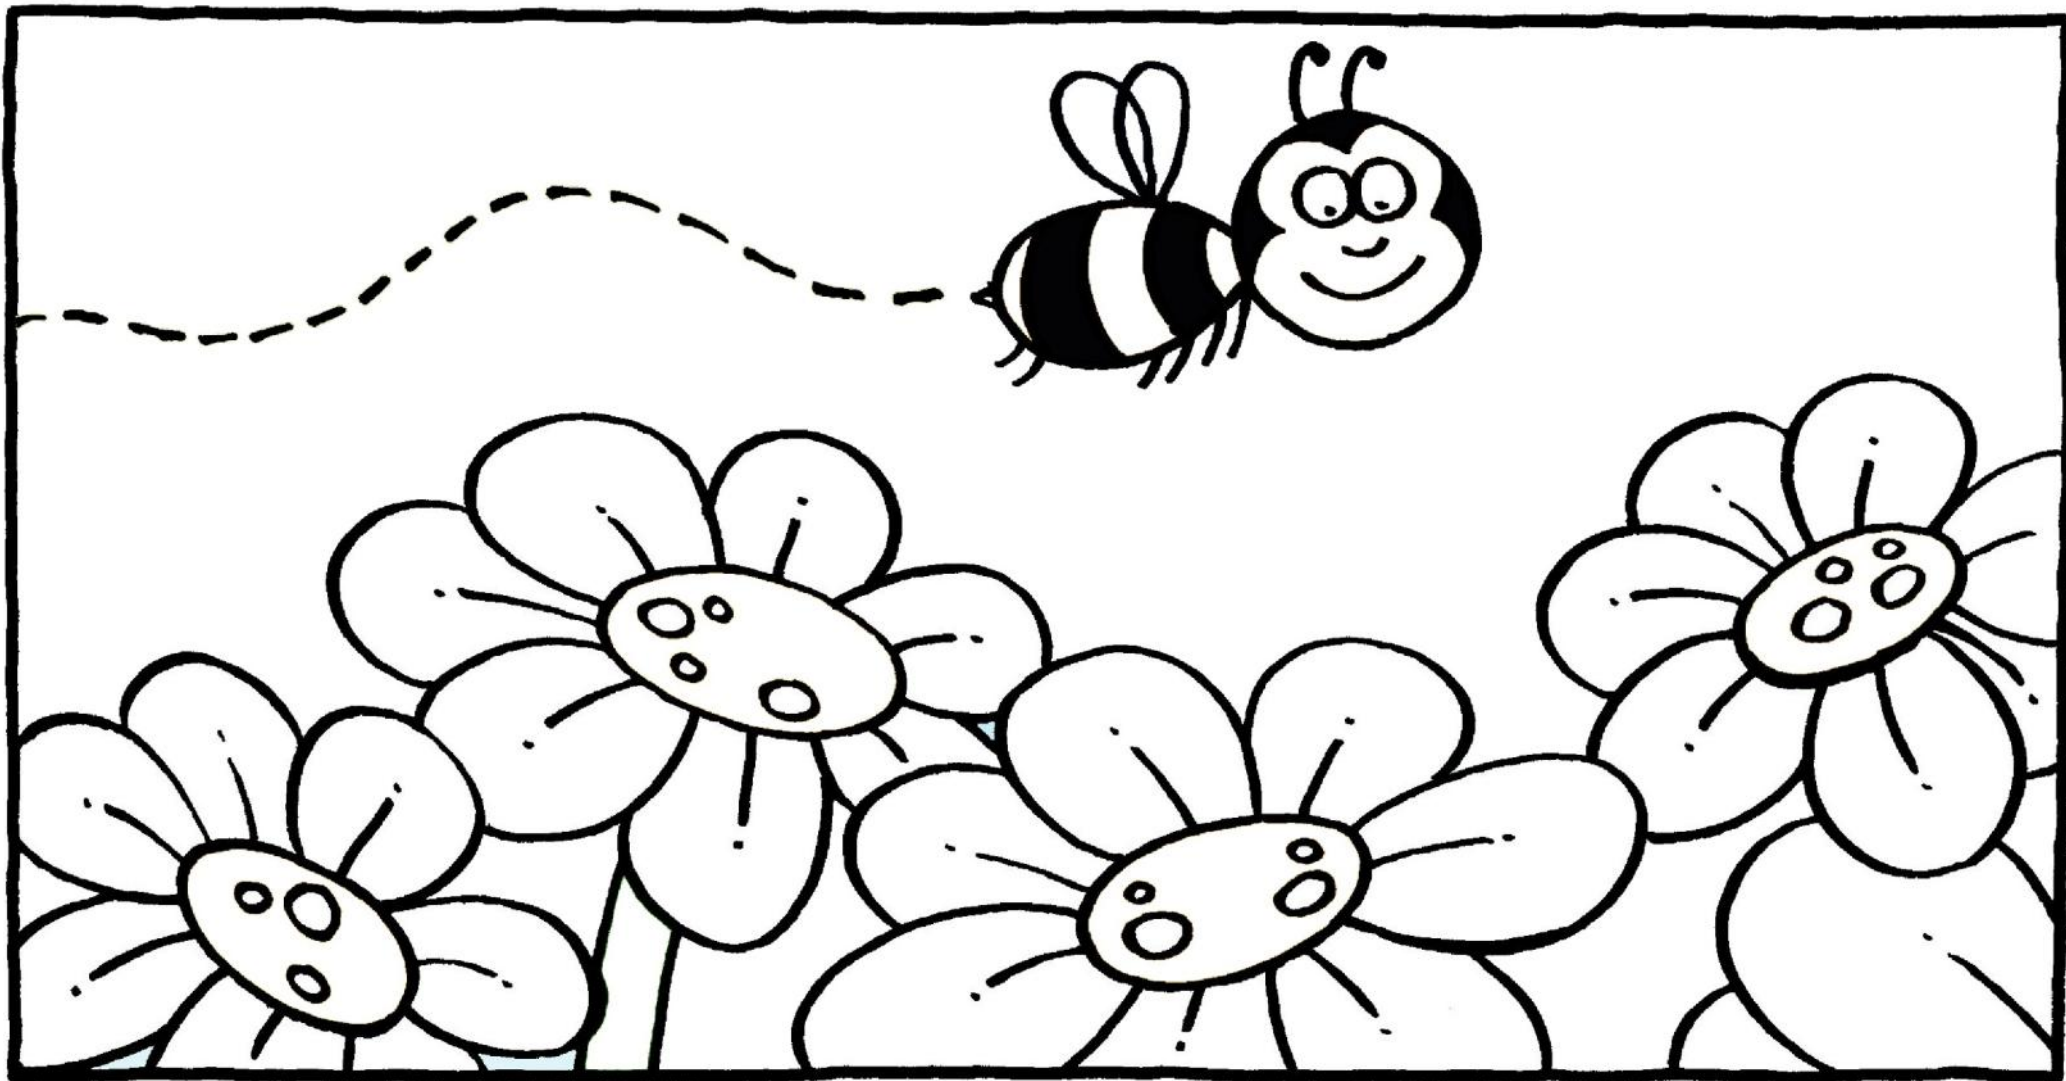

Bees need flowers
to make their honey.
Flowers grown
in the soil.

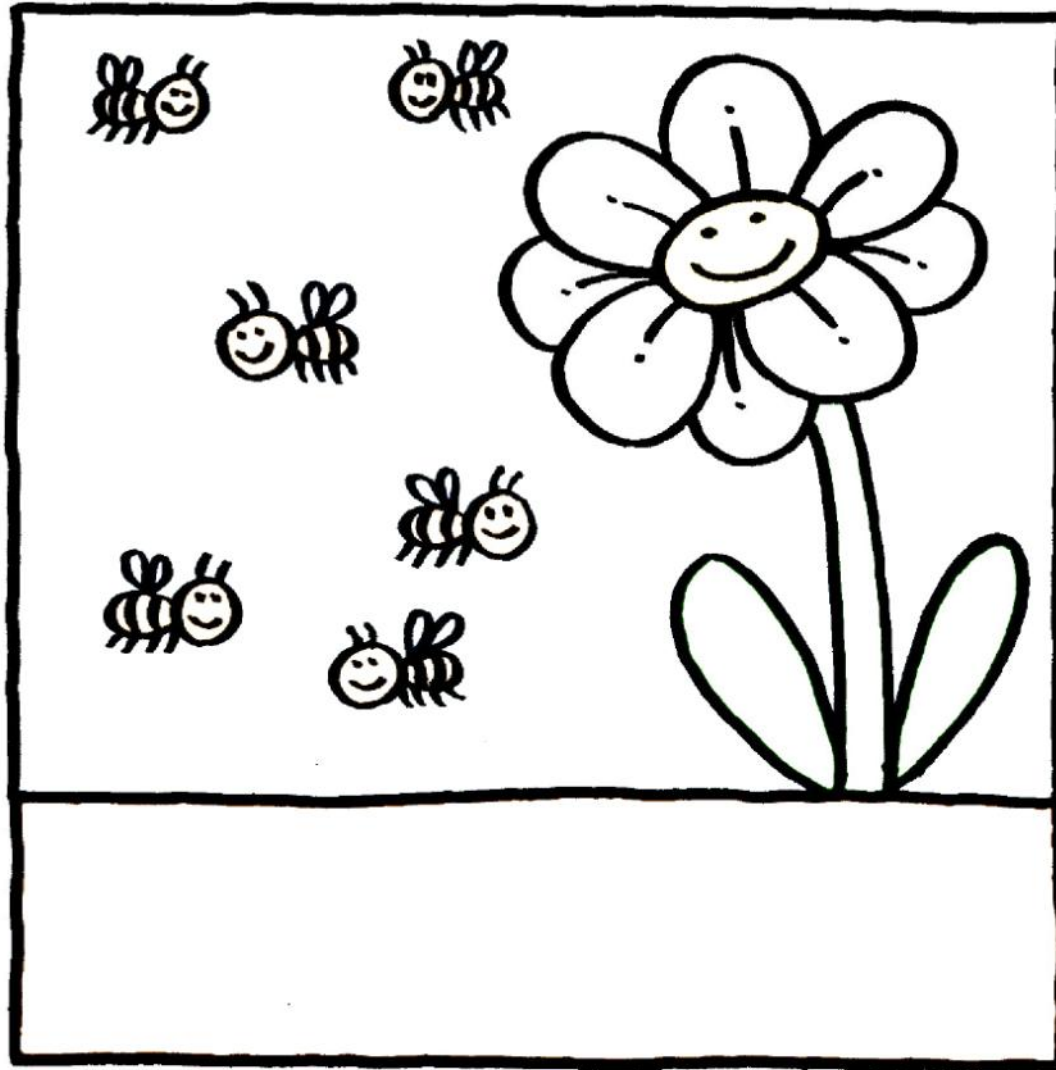

God made soil.
Good soil makes
plants grow in our garden.
It is all God's idea.

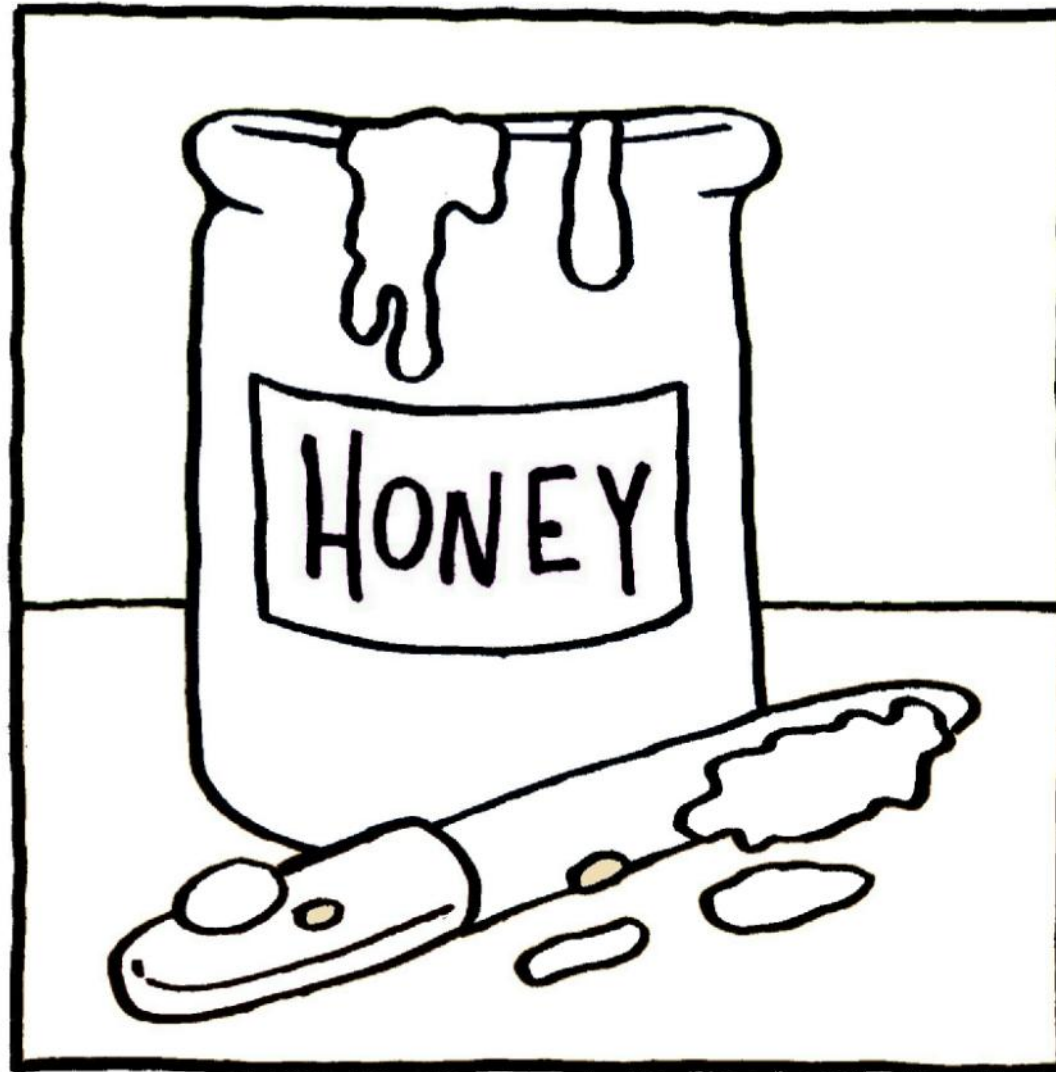

God made flowers
and the bees
make honey from
the nectar in the flower.

Bees know which flowers
they need to
make their honey.
It was God's idea.

The bees tell their friends
where the good flowers grow.
They all work together
to make honey.

Honey is good to eat.
Bees, soil, flowers and honey
are God's idea.
YOU are God's idea too!
