

It is like being part of a team.  
I am glad that I can help a sick,  
hungry child have a better life  
and hear that God loves them.

1

When I hear on the news  
about all the hungry children  
living in other countries  
I wish that I could help them.

2

Then I am helping hungry children,  
even though I can't go there myself.  
If we all give what we can,  
together we can make a difference.

Missionaries need money  
to buy food and medicine.  
I will give some of my money  
to the missionaries who help the children.

Even if I saved  
all of my pocket money  
I wouldn't have enough  
to pay for a plane ticket.

I can pray for missionaries  
and for sick, hungry children  
and ask God to show me  
other ways that I can help.

A missionary showed us  
the places in the world  
where he looks after children who  
are sick and hungry and need our help.
