

17. Me and My Truck

Jill Kemp

Melody by Steve Wiggins

Sung by Steve Wiggins

Driving my big Mac truck

drive

Up north,

point up

Down south and then

point down

I drive my truck from east to west

point left & right

And home again

"house" over head

pull horn

Me and my truck just rolling along

rolling hands

I wave to my mates while I sing a song

wave

Driving my truck

drive

Just watching the world go by

pull horn

Driving my big Mac truck

drive

Up north,

point up

Down south and then

point down

I drive my truck from east to west

point left & right

And home again

"house" over head

pull horn

Sometimes I drive my truck at night

drive

My rig lit up

Oh what an awesome sight

open & shut hands held up

Driving my truck and

driving

Watching the world go by

pull horn

Me and my truck just rolling along

rolling hands

I wave to my mates while I sing a song

wave

Driving my truck
drive
Just watching the world go by
Driving my truck just
Watching the world go by

pull horn

Introducing NORTH - SOUTH - EAST & WEST
